The Florida ARF Award Committee selected Brad Jones, director of Adult Services at Community Haven for Adults and Children with Disabilities Inc., as the recipient of the Michael Goodman Award.

The annual Michael Goodman Award is voted on by the Florida Association of Rehabilitation Facilities. It is given to one company leader to recognize outstanding and significant contributions to serving Floridians with disabilities.

Jones has been instrumental in expanding the Haven Industries Program from 75 adult clients to more than 125 in the last year. Contracts with companies seeking light assembly work has also doubled from six companies to more than 12 in the same period.

Under Jones' direction, a new group home known as "Jacquelyn's House" is now complete, adding to the other three group homes, which now accommodate a total of 33 adults on Community Haven's 32-acre campus.
